

WWLX OPT IN / OUT FORM

WWLX is the ability for offices and agents to display on their public websites aggregated MLS active listings in compliance with WWLX policy as incorporated within the MLS Rules & Regulations. A copy of the General Information and Guidelines (Rules & Regulations) were previously sent, if you did not receive a copy please contact the board office immediately.

There are two WWLX formats that will be available:

1. SMART FRAME: This frames the "Public View" of the MLS . The listings under WWLX will automatically display the listing office name but not the listing agent along with the appropriate disclaimer. This service is still under development.
2. FLAT FILE: Risco will provide a special FTP site, from which offices or agents can pull listings into their own public websites where they can be displayed and accessed utilizing their own search engines. There will be no charge for this service from the MLS.

IMPORTANT: This is an "opt in" program. Accordingly, if you don't elect to opt in your listings will not be included. If you do not elect to opt in, please note the following:

- a. Your agents cannot participate
- b. You cannot display other Broker's listings
- c. You may decide to participate later upon written notice to the MLS

NOTICE OF WWLX STATUS

Company Name: _____

DR Name: _____

Signature _____ / ____ / ____
Date

- I want to opt out of WWLX.
- I want to opt out in and link to the WWLX frameable site at a cost of \$10/month.
